

PRESS RELEASE

CARBOTECH INNOVATIVE FLIES TO PARIS AMONG THE EXCELLENCES OF COMPOSITE MATERIALS AT JEC WORLD 2024

Teramo, February the 27th – In line with its business development plan, **CARBOTECH INNOVATIVE** - an Italian company **specialized in the production of advanced composite materials** - will participate in **JEC WORLD 2024**, the most important international showcase dedicated to the world of composite materials, which will be held in **Paris from March 5 to 7 at the Paris-Nord Villepinte** exhibition park.

At **Pavilion 5 D91**, within the **Made in Italy exhibition space** coordinated by ICE (Italian Trade Agency), **CARBOTECH INNOVATIVE** will bring some of its carbon products made for the automotive, aerospace, marine, and other industries. The strengths of the production are closely connected with the know-how, always oriented towards technological innovation made of materials (carbon, natural fibers, glass, epoxy and thermoplastic matrices, etc.) and continuously evolving processes (autoclave, press, injection, infusion, rtm, etc.) and the always guaranteed quality certification.

CARBOTECH INNOVATIVE is able to offer significant diversification of manufacturing processes, based on customer specifications and needs. Among the differentiating elements, **CARBOTECH INNOVATIVE** and its team of connected companies boast **one of the largest autoclaves in Europe**, possibilities for **press moulding, painting, milling molds and models, consulting and design services** in various product areas and tools. To complete the design and production ecosystem, a new business area dedicated to the development of thermoplastic components for the automotive world has recently been integrated.

The last edition of the **JEC WORLD 2023** fair saw the participation of over 40,000 visitors, including professionals, journalists, and insiders. Even this year, an unmissable appointment is expected, an important opportunity for sharing best practices and ideas on the new frontiers of composite materials. "I am thrilled to bring our reality to **JEC WORLD** in Paris, the most prestigious showcase for those operating in the advanced composite materials sector. For us, it is an important opportunity to showcase our made in Italy excellences and expand our international partner network." - declares **Marco Pistillo, CEO of CARBOTECH INNOVATIVE** - "We aim for sustainable growth, and to do this, we are increasingly inspired by companies that, like us, are focused on innovation and quality. We look forward to seeing you in Paris!"
